

This list of the Canadian Coast Stations was composed by Mr. Alf Lawton. Mr. Lawton was one of the first wireless operators around Eastern Canada and was one of at least six that tried to record this history and failed, at least failed to have it published in a book, but as long as we keep copies of this history in circulation it may become better known.

The stations according to Mr. Lawton were:

1910	Port Arthur, ON	October 31	PR - MPR - VBA
1912	Midland, ON	July 5	CKD - VBC
1912	Tobermory, ON	July 24	CJD - VBD
1912	Sault Ste Marie, ON	August 7	CID - VBB
1913	Point Edward, ON	April 16	VBE
1914	Kingston, ON	January 19	VBH
1914	Toronto, ON	January 24	VBG
1914	Port Burrell, ON	January 30	VBF

The following is a list of the last of the Canadian Coast Stations. All were identified by the suffix "Coast Guard Radio" via radiotelephone. Those with an * were fitted with radiotelegraph when closed and therefore used the call sign for identification.

VDQ	Cardinal, ON
VBF	Port Burwell, ON
VBE	Sarnia, ON
VBB	Sault Sainte Marie, ON
VBA	Thunder Bay, ON
VBG	Toronto, ON
VBC	Warton, ON

10-01-1975 Marine radio stations became Canadian Coast Guard Radio Stations and on 06-26-1979 the operators became part of the Canadian Coast Guard.
